Five New World's Records Made At Maui Meet

Weismuller Lowers Figures at Distances and Kealoa Clips Hundred Yards Backstroke; Fine Meet.

(Five world's tank swimming records went to smash at Puunene Tank last night. Maui devotees of aquatic sports are convinced that Johnny Weismuller is the rightful successor to both Duke Kahanamoku and Norman Ross for premier honors. He is truly a wonder and he showed it at distances from 50 yards to 500, though making no records for the sprints. The Maui Athletic Club meet was a fine success.)

Warren Kealoa lowered the world's record for the hundred yards backstroke but did not equal the time in the disputed race at Honolulu with Weismuller where the judges gave the race to Weismuller but the majority of the timers caught Kealoa's figures.

Seating capacity about the Puunene tank was taxed to capacity when the trial for records, first event on the program, by Weismuller was announced. He allowed Kealoa 25 seconds and Harris 20 seconds, their time not to be taken. He was out after the records for 400 yards, 400 meters, 440 yards and 500 yards and he got them.

Records Are Shattered
Harris soon caught Kealoa and after that they plowed on together but were passed by Weismuller before the 300 mark was passed. Then the Mainland star had to pace himself. He was caught at the 400 yards by the timers at 4:40 2/5, an even 14 seconds under Norman Ross' world's time. At the 400 meter he was clocked at 5:08 2/5, just 6 1/5 seconds under Ross' time. The 440 yards was passed in 5:10 flat, 4 3/5 under world's time and the 500 yards in 5:52 flat, 4 4/5 seconds better than Ross' past record.

In the Maui events there was some mighty close and keen competition and some great finishes.
No entries being made for the race for boys under 10 at 25 yards, a race 31 that distance was put on for girls under 11. Cyrilla Garcia won from Anna do Rego with Anna Garcia at third.

Rosalie Abreu a Star
At 50 yards free style for women, Rosalie Abreu sustained her past reputation as a coming star and won in 23 flat with Hannah Tavares second and Sophie Abreu third.

Troop 10, the youngest Wailuku Boy Scout team, took the 150 yards Boy Scouts' relay from Troop 3, Wailuku, thus preventing the latter from keeping the Gesner cup permanently. Lahaina was third.

The 50 yards free style for Men was won by Kahn, second Hair and third Penhallow, and was a hard fought race, time 28 4/5.

Kealoa Makes Record
Weismuller would not swim in the hundred backstroke against Kealoa, this being the disputed race in Honolulu. He claims the championship and the time for the distance. Pung swam with Kealoa and led at 50 yards but then Kealoa drew away from him. Time 1:06 1/5, which is a fifth under the record unless the Honolulu figures be allowed Weismuller by the A. A. U.

Humphrey took the spring board diving with a fine exhibition.
Sophie Abreu was winner in the women's plunger, traveling 41 feet.
Kahn got another win in the 100 yards free style for Maui men, Lindsey second, time 1:07 2/5.
Star of Bethlehem troop won the Girl Scout's relay after some hard diving in 1:06 1/5.

Time is Slow

There was disappointment as to the time for the open fifty. Weismuller took the event in 24 1/5 the timers said but Bachrach, Weismuller's trainer, caught the time a second faster and Lloyd Conklin's watch read two fifths faster than the official time. Kealoa was second and Kanoa third.

Jack Hjorth gave a fine exhibition of fancy diving and later in the evening had the great crowd in roars of laughter at his comical diving.

Rosalie Abreu took her second event 25 yards free style for girls under 13 in 15 seconds flat. Louise Dubois was second and Dorothy do Rego third.

Humphrey was an easy winner for Puunene in the plunger, 46 feet nine inches.
Weismuller also took the hundred free style from Kealoa in 54 flat, with Bill Harris third. Their work in the 500 yards at the start had slow them all down for the later events, as evident.

The 50 yards free style for boys went to Matsushimo, second Fautata and third Ekau, time 31 flat.

Lindsay took the 50 yards backstroke with Hair second and Kahn third time 38 flat and the final number on the program was won by a combination relay team, Wailuku and Puunene against Kahului and Lahaina.

WILL ATTEND LENINE

(ASSOCIATED PRESS)
LONDON, June 7.—A Times dispatch from Berlin says Dr. Klemperer who previously treated Lenin has been summoned to Moscow.

United Chinese Club Gives Dinner in Honor Visiting Ball Teams

Visiting ball players, members of the Maui Athletic Club and the Fair Association sports committee and others, including a number of ladies were the guests of the United Chinese Club at the Ching How restaurant at a delicious and sumptuous Chinese dinner. For a mingling of the races the affair was a revelation of the friendliness between the American Chinese and Occidentals, and socially as well as from the epicurean point of view nothing more could be asked.

After attempted justice had been offered to the bountiful dinner Alfred K. Ting explained the purposes of the dinner and the United Chinese Society, then introduced Paul Low as toastmaster.

Low called on Harold Rice, the man "with the million dollar smile", as Low called it, and the senator told of his disappointment at the defeat of Haku and other Maui defeats but said there would be a different story a few weeks hence. He advocated a visit to Honolulu of a Maui team and an annual series of games.

Manager Perry of the Liberty House party made some remarks on the subject of his team and Maui hospitality and had the dinner in good humor. Other speakers were J. Garcia for the Maui Athletic Club, Chairman Paschoal of the baseball committee, Will Engle, who was chiefly responsible for bringing about the visit, the managers and captains of the two teams, J. H. Gray, L. C. Lewis and others, all of whom made brief talks and the dinner closed the evening by rising and singing "Aloha Oe."

Broadcast Concerts Now Heard on Maui

Music by the air—not airy music—will soon be assured for Maui, as radio broadcasting in the Territory will soon be perfected by The Honolulu Advertiser radio engineers, A. F. Doran of the Advertiser says.

Mr. and Mrs. Charles Morris of Wailuku with their Maui made apparatus enjoyed a complete Advertiser concert Friday evening at their home. The speaking and music was distinct and the modulation excellent, Morris reports.

Clifford Bow with the outfit he made for himself has been meeting with still better success in "picking" music from the air and after watching the rapid progress of radio broadcasting very closely in the Islands feels certain that the highest standard of satisfaction will soon be guaranteed to people owning receiving sets. Star-Bulletin concerts have also been heard.

"Persons who are unable to get results with their radiophone sets on Maui do not want to be alarmed as we are not attempting to get our concerts over here yet," A. F. Doran, Advertiser representative, said yesterday. "The Advertiser has not opened its plant officially and all the tests to date have been confined to Honolulu exclusively. The radio engineers have not used more than 25 per cent of the plant's power at any time."

"The main object at present is to find adjustments that give perfect modulation and after that it is an easy matter to increase power. It would only be a waste of power to us and annoying to the receiver to send the concerts this far when the modulation is poor. Even with the power so low The Advertiser station has been heard throughout the entire Territory by amateurs so you see that it is a safe proposition in getting your receiving sets installed now before the big rush comes on apparatus."

Salvation Army Plans Extensive Lecturing

By the Mauna Kea at Lahaina tomorrow afternoon will arrive on Maui Brigadier C. W. Bourne and Commander James C. West of the Salvation Army.

An extensive program of lectures in connection with which, in some instances, slides and photographs will be thrown on a screen, has been arranged for the visiting officers and will cover practically all of Maui, according to Ensign Claire D. Stiles, who is in charge of the Army's affairs here.

First of these will be at the Wailuku Hall of the Salvation Army tomorrow evening at 7:30. Thursday an illustrated lecture will be given at Wailuku at 7:30. Friday an illustrated lecture is planned for the M. A. Co.'s theatre at Paia also at 7:30 and the Saturday meeting will be held at the Wailuku Hall.

Meetings of future dates will be announced in Friday's issue.

DEPARTING SISTERS HONORED.

For Sisters Ignacia and Bernardette, soon departing for the Mainland, the Alumnae Association of St. Anthony's School, entertained at the school yesterday afternoon. Among those attending to say farewell to the sisters were Rev. Father Justin, Mrs. Rose Alexander, Mrs. J. Abreu, Misses Margaret Marks, Violet Martinsen, Olympia Goncalves, Alice Moniz, Nazon Correa, Mary Doong Soong and Louis Tony and Sylvester Correa.

Mellor To Build Puunene School

Contract Is Let But Start of Work May Be Delayed Not More Than Two Weeks; Health Board Butts In.

Puunene's new school building will be constructed by E. C. Mellor to whom the board of supervisors awarded the contract Friday afternoon. His tender was \$57,750, lowest of the four offers that were opened and Charles Savage was a close second, \$750 higher. Other bidders were Henry Freitas of Honolulu and William D'Esmond. The deed to the new site has been received from the H. C. & S. Co.

Immediately before the opening of the bids and for a short time afterward there was something of a stir in the board because of a letter on the subject of the plans and specifications received by County Engineer Paul Low from Vaughan MacCaughy superintendent of public instruction. The letter quoted from a communication from the health board which said the proposed plans were not satisfactory to that board but could not be passed upon until the return from the Coast of Mr. Tay, of that department who is on the Coast attending the Shriners' convalescence and would not be back at his duties until after June 19.

Action Not Understood

It was not clear to the supervisors and other county officials that approval of schools plans in advance by the health board is necessary and if it is necessary why start on school work should be held up for more than a month and the opening of bids be postponed until the July meeting because, as members of the board expressed it, "an employee of the health department was away on a department" and "it was not right for a department to try to hold up and delay public improvements because of the absence of one of its employees."

The site for the proposed school has been approved by School Commissioner Lindsay, Supervising Principal Wells and Superintendent of Public Instruction MacCaughy. The plans have been approved by MacCaughy also. The board decided to open the bids.

When the tenders were opened Supervisor Fleming made the point that it might be well to arrange with the contractor that start of work should be delayed for not to exceed two weeks so the matter might be taken up further with the board of health in the meantime. This matter was put to the contractors and Mr. Mellor said he would be willing to delay that long but no longer, and such was the understanding.

Toilets Outside

What if any objection the board of health may have is unknown but it is surmised to be because of the fact that lavatory and toilet accommodations for the children are not shown. There are two such rooms for the teachers but the accommodations for the pupils are to be in separate and detached buildings to be provided aside from the contract for the school building proper.

Reports have come to Maui that there has arisen in other cases some conflict between the department of public instruction and the department of instruction because of approval of the plans for schools by Superintendent MacCaughy before approval was given by the health department. The understanding here is that with plans approved by the department of instruction the board of supervisors can go ahead and the action of the board in arranging for a possible delay was to give the department of health opportunity to know the general plans more fully than the drawings for one building showed.

County Engineer Low has received a letter and a telegram from Vaughan MacCaughy which says it is all right to proceed at once and he has no notified contractor Mellor, so there will be no delay in making the start.

Premier Kato Not To Change Foreign Plans

(ASSOCIATED PRESS)

TOKIO, June 12.—Viscount Yasuga Uchida, who is minister of foreign affairs in the cabinet which has been formed by Admiral Tominoburo Kato, who yesterday announced his acceptance of the premiership, today announced that the policies of Japan will not be changed in regard to the Washington agreements. He said Japan will evacuate the Siberia and North China territories as soon as order is restored and safety of life and property guaranteed.

Besides Admiral Kato the cabinet will be composed as follows: Viscount Yasuga Uchida as minister of foreign affairs; Rentaro Mizuno, home affairs; Otobiko Ichiki, finance; Hanzo Yamanaishi, army; Elkichi Canada, education; Keijiro Okana, justice; Rentaro Arai, agriculture and commerce; Viscount Toshida Maeda, communications; Enkichi Oki, railways.

Manukai in—The Matson freighter Manukai arrived in Kahului Monday and has been busy loading cargo, there being no holiday on the Kahului waterfront.

Another Man of Maui Urged For Next Delegate

Strong and Growing Sentiment for Harold W. Rice Is Reported From Honolulu; Cooke Not Candidate.

Clarence H. Cooke will not be a candidate for delegate to congress and in Honolulu there is a quiet but growing movement afoot to make a Maui man the standard bearer at the November election. This time it is Senator Harold W. Rice that is being urged.

City and County Treasurer Lloyd Conkling of Honolulu is authority for the assertion that Clarence Cooke will not be candidate. He was on Maui over Sunday and said that Cooke had told him personally that he would not be a candidate for the Republican nomination under any circumstances.

Henry Freitas, former head of the building department in Honolulu when there was a Republican administration there, is authority for the statement that Harold Rice is the choice of a large number of Honolulu voters and is regarded as one of the strongest probabilities.

Baldwin Is Firm

Letters from Delegate Baldwin to various persons here and in Honolulu have made it perfectly clear that he will not accept a renomination. He reiterated that he accepted the nomination and election only for the unexpired term and for the unexpired term only and that under no possible considerations will he run again.

Lawrence M. Judd, head of the Republican Territorial Central Committee, is also mentioned as a possible candidate.

From Honolulu, also, comes the news, that Speaker H. L. Holstein of the House of Representatives will not be a candidate for reelection but has offered himself as campaign manager for Senator John H. Wise in a contest for the delegateship.

Isle Politics

On Maui Senator Rice has been little talked of as a possibility for the delegateship but has been expected again to seek election for the senate. Peruvia Goodness is mentioned most prominently for the other senatorship and appears to have the running all his own way. The names of J. J. Walsh, C. D. Luffkin and J. W. Kahua have also been mentioned.

Little talk has been heard as to representatives. If Goodness decides on the upper house that will leave one vacancy. The health of John Fassoth has not been the best since the last session of the legislature and he has not been heard from as to a candidacy. Levi Joseph has moved from the Hana district to Molokai where he is deputy sheriff, so there are open several possibilities for new men in the Maui delegateship.

Senator Rice says he has not considered running for delegate and would not do so under any circumstances, that he does not want to be considered in any way as a possibility for it.

Harding Threatens A Special Session

(ASSOCIATED PRESS)

WASHINGTON, June 13.—President Harding has notified Chairman Campbell of the House Rules Committee that unless the Ship Subsidy Bill is passed prior to the adjournment of congress he will feel obliged to call a special session.

It is said at the White House that the President hopes to see the Tariff Bill passed before the Bonus Bill. Senator Ladd has an amendment to the Bonus Bill for the payment of the soldiers' bonus in cash by a special tax on banks and by the interest received from foreign debts.

It is said at the White House that the President is contemplating no drastic action in regard to the coal strike.

Mountaineers Visit Crater—A party of more than a dozen members of the Honolulu Trail and Mountain club came over from Honolulu on the Kilauea Saturday and took up headquarters at the Grand Hotel. They made the mountain trip yesterday, returning late yesterday afternoon. Lorin K. Smith furnished horses for the trip.

RELEASED FROM RUSSIA

(ASSOCIATED PRESS)

HONOLULU, June 13.—Madame Eugenia Mjediolf is expected to arrive on the Wilhelmina late today and will join her son on Maui where he is a resident physician at Kula Sanitarium.

Madame Mjediolf has been permitted to leave Soviet Russia on the representation of a number of Americans both of Maui and here, including Governor Farrington and other officials.

Her arrival marks the end of a year of efforts to get her away from Russia where she has undergone serious sufferings because of her advanced age.

Labor's Life Is Hung In Balance

Gompers Tells Convention of Serious Situation That Confronts Their Organization; Wildly Applauded.

(ASSOCIATED PRESS)

CINCINNATI, June 13.—Facing a fight in which union labor leaders say the very existence of unionism hangs upon the outcome, the American Federation of Labor opened its 42nd annual convention here yesterday.

In his opening address to the convention, Samuel Gompers said in part: "We are in no mood to see our principles and the privileges guaranteed to us by the Constitution of these United States taken from us by any subtle reasoning nor any assumption of power no matter whence it emanates." His speech was greeted with wild applause.

Santiago Iglesias, president of the Porto Rican Free Federation of Workers, presented a report endorsing Governor Reilly.

This morning the convention passed a resolution condemning the Ship Subsidy Bill as inimical to public interests and destructive to the nation's hope of sea power.

(ASSOCIATED PRESS)

CLEVELAND, June 12.—J. H. Tregeoe of New York, secretary of the Retail Market Men's Association, when addressing that body on Gompers' recent criticism of the Supreme Court decision, said, "The man who says our courts are wrong is a liar and the safety of America is threatened by barbarians like those who caused the downfall of Rome."

(ASSOCIATED PRESS)

PROVIDENCE, R. I., June 13.—National Guard troops have been rushed from the strike in Pawtucket Valley villages to the Flat River reservoir in the town of Coventry following an unsuccessful attempt to dynamite the gate of the reservoir which supplies many textile mills with water.

Officials said that if the attempt had been successful two and a half million gallons of water would have rushed down upon the textile plants.

County of Hawaii to Be on Short Ration During Coming Year

(ASSOCIATED PRESS)

HONOLULU, June 10.—Hawaii county will have to get along this year on approximately \$410,000 instead of the \$520,000 which will accrue through taxes for purely county purposes, based upon the 1922 assessed valuation of real and personal property, under the tentative solution of that county's financial problem as worked out at a conference in Governor Farrington's office yesterday afternoon.

Governor Farrington said: "I believe we have solved the problem, although it will be necessary to work out further details in connection with school construction. There is no question but that three items of expense, representing fixed charges against the revenue must receive the full amount called for in the budget. These are interest and sinking fund, teachers' salaries, and assessing and collecting taxes. These expenses must be met before allotting any money for county and territorial purposes."

By removing the item for the Hilo and Hamakua water works from the class of fixed charges, giving to that item only the money available and by taking out of the item for school purposes the money appropriated for school construction, it is hoped to effect a retrenchment which will allow for the payment of all fixed charges and yet not reduce to an alarming extent the amounts needed or available for other purposes.

Imperial Conclave Of Shrine Opened

(ASSOCIATED PRESS)

SAN FRANCISCO, June 13.—The Shrine officially opened their annual Imperial Conclave and the celebration of the fiftieth anniversary of the foundation of their order with an enormous parade which was witnessed by great crowds on all the streets through which it passed.

The hospital committee, at the session which followed, took up the consideration of Honolulu's application for a hospital which will be acted upon later.

Three hundred of the Al Malaikah Temple of Los Angeles will sail for Honolulu on the Matsonia Friday and the Nile is booked full of Shriners to leave on Thursday.

ARTHUR GRIFFITHS DIES

(ASSOCIATED PRESS)

HONOLULU, June 12.—Prof. Arthur Griffiths, former president of Punahou, who left that institution several months ago because of ill health has died in a hospital in San Francisco, according to cable advices received today.

Hurricane Slays Scores of Sunday Pleasure Seekers

Storm Lasts Only Five Minutes But Hundreds of Small Boats Are Capsized; Helpless Crowds Watch.

(ASSOCIATED PRESS)

NEW YORK, June 13.—The morning and undertaking establishments now hold more than 60 bodies of victims of the storm of Sunday and the marine police are grappling in the vicinity of Perth Amboy on the Jersey coast, in Long Island Sound and off City Island and it is predicted that at least a score more bodies will be recovered and that some of the victims of the hurricane's force will never be found.

Two hundred and fifty small craft were bobbing about off City Island alone when the storm came screaming down upon them. Some of them started to scamper toward safety but were hardly under way ere they were engulfed in the torrential rains of the hurricane that attained a wind velocity of 88 miles an hour and then vanished with the suddenness with which it came, lasting only a terrible five minutes. Scarcely a dozen craft had survived and a horror stricken crowd saw scores of persons clinging to wreckage in a choppy sea in the sound and in the bay. One by one, exhausted, they dropped from the wreckage to which they had clung and were carried out to sea by the tide. The incoming tide later brought back with it more than a score of bodies but some of those lost will never be recovered.

Many small boats put out and soon were picking up the more hardly ones who had survived and were still afloat.

More than 20 persons saved themselves by clinging to the sides of the Intrepid, the schooner yacht of Cornelius Vanderbilt.

Falling trees, lightning, wind and accidents due to the storm, caused many deaths.

The storm followed a torrid day. It swept across New Jersey, Westchester county, the city of New York, Long Island, Bronx and Manhattan. A Ferris wheel in Bronx park was smashed, killing six and causing a panic in the park. At least a score were injured there. Hundreds of thousands of persons were on the beaches when the storm struck.

ALBANY, N. Y., June 12.—An electrical storm in central and northern New York yesterday afternoon caused a loss of two lives and damages that will run into millions. The property loss in Syracuse alone is estimated at \$1,000,000, and in Oneida \$500,000.

Pool Halls To Close During Morning Hours

Pool rooms and halls will be closed mornings in Maui after the first of July. The open season for shooting pool balls will be from noon until 10 o'clock p. m., and most common loafing places for the idly inclined will be closed to them during the morning hours.

Following the action of the Chamber of Commerce on the subject of regulating the hours for the operation of pool and billiard establishments, the committee named by the chamber, H. K. Duncan and Rev. J. C. Villiers, called on County Treasurer Cockett on Friday and the county official showed every desire to cooperate in securing hours for pool rooms that would meet the demands. He readily agreed to the morning closing instead of the proposed closing from 11 a. m. to 4 p. m. Next it was decided that 10 p. m. would be late enough for them to run and so the operating hours are fixed from noon to 10 o'clock at night.

At the chamber meeting there was no inclination exhibited to inflict any undue hardship on the establishments but there was a unanimous sentiment that labor and social conditions on this island would be improved by a closing of them during the morning hours. After noon there are plantation and other workers who are pau work. If the amusement places were closed against them for some of their hours of recreation it would not be just, it was felt. On the other hand, men who are able to walk miles around a billiard or pool table in the morning hours are usually equally as able, physically to do a day's work for themselves and their dependents.

Dr. Elwood Mead Goes To Molokai Today

(ASSOCIATED PRESS)

HONOLULU, June 12.—Dr. Elwood Mead, who has come to the Islands from California as an expert in connection with the Hawaiian homes project, will leave tomorrow for Molokai with Executive Secretary George P. Cooke.
